Frontend Framework

React.js

Design Tools

Figma, Adobe Photoshop, Adobe XD, Canva

CMS

Basic knowledge of WordPress

Soft Skills

Communication, Teamwork, Problem-solving, Attention to detail

Professional Summary

I am a Web Designer with 7 years of experience and a UI/UX Designer for the past 3 to 4 years. I love creating websites that not only look great but are also easy to use. I design using tools like Figma, Adobe XD, and Photoshop, and I build web pages using HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, and jQuery.

I have experience in creating both wireframes and mockups, turning ideas into visual layouts that help clients and developers understand the final design. I also have basic knowledge of React.js and WordPress.

I know how to build responsive websites that work smoothly on mobile and desktop. I enjoy working with teams, understanding client needs, and creating designs that solve real problems and give users a better experience.

Employment

Sr. Web Designer

Webmobril Inc. | Indore

2024 September - Present

Roles & Responsibilities:

- Designed clean, modern, and responsive landing pages for various clients.
- Integrated client CMS platforms and dynamic data feeds into website structures.
- Optimized websites for fast loading and better scalability across platforms.
- Followed industry standards and modern UI/UX practices during web development.
- Conducted website testing to ensure performance and browser compatibility.
- Designed mobile app interfaces using Figma and other UI tools.
- Ensured stable performance across all devices — desktop, mobile, and tablets.
- Handled additional design and web-related tasks as assigned from time to time.

Sr. Web Designer

Reinforce Software solutions Pvt. Ltd. | Indore

2018 October - 2024 September

Roles & Responsibilities:

- Designed and developed responsive, interactive websites using HTML, CSS, and jQuery to enhance user experience and engagement.
- Created high-fidelity mockups and interactive prototypes using Figma for effective design presentations and feedback.
- Followed web design best practices with a focus on accessibility, usability, and SEO to improve site performance.
- Built custom HTML templates for Drupal-based websites, supporting back-end integration by developers.
- Worked on various WordPress projects, including content creation, theme customization, and solving layout/design issues.
- Ensured all web pages were fully responsive across desktop, tablet, and mobile devices.
